2nd OSGeo Ireland Symposium 2018

25th May 2018, Portlaoise, Ireland

Welcome to #OSGeoIE2018

- THANK YOU for your attendance and your contributions.
- At OSGeoIE 2017 there was overwhelming support for another event.
- We considered feedback from the 2017 event:
 - A more central location (Portlaoise)
 - More lightning talks (we have 19, up from 11 in 2017)
- **Today is about exploring the use of OSGeo software/services and FOSS4G (Free and Open Source Software for Geomatics) in an Irish context.**
- The only “official” meeting of the Irish OSGeo and FOSS4G community (that we know of...)

OSGeo empowers everyone with open source geospatial

- **OSGeo is a not-for-profit software foundation**
 - Provides projects financial, organizational and legal support
- **Outreach and advocacy**
 - Promoting global adoption of open source geospatial technology
 - Partnerships on open approach to standards, data and education.
- **OSGeo is a volunteer driven**
 - Passionate membership of individuals from around the world.

This event is part of the Irish Local Chapter Mission to grow OSGeo/FOSS4G in Ireland

- Hold annual events such as this symposium
- Organise smaller events such as training days
- Potentially, in the future, bid to host in Ireland large events such as FOSS4G Europe
- Create a networked community of OSGeo/FOSS4G users, developers, practitioners, teachers, advocates, etc
- **Interested in joining the Irish LOC? – Chat to any of the committee, join the mailing list, etc**

**Private
Sector**

SME

Education

**State
Agencies**

Research

Government

An overview of today's programme

- **Next - KEYNOTE - Dr. Marco Minghini (until 10:00)**
- **Lightning Talks Session 1 10:00 - 11:10**
- Tea/Coffee break 11:10 - 11:40
- **Lightning Talks Session 2 11:40- 12:50**
- LUNCH (Triog Restaurant) 12:50 - 14:00
- **WORKSHOPS 14:00 - 16:30** (Tea/Coffee served around 15:00)
- **Wrap up and Official Closing 16:30 - 16:45**

Workshop Locations and Setup

- **Data Driven Cartography in QGIS** – here in the O'Moore Suite
- **Processing Satellite Imagery using OSGeo Software** (Dunamais 3)
- **An Introduction to Open Source Geospatial Python** (Dunamais 4)
- Tea/Coffee served (walk out and in) around 15:00
- You'll need your own laptop which must be able to boot up from the OSGeo Live USB Key (provided)

A short welcome to you at OSGeoIE2018 from OSGeo President **María Arias de Reyna**

And her cat....

Please use our hashtag #OSGeoIE2018 if you are online during the event today

- We're on Twitter @OSGeoIE (please follow us)
- **Be device considerate** – by all means use your electronic devices but please do so discretely during the sessions and workshops.
- I will be taking the 'official photographs' which will be made available on Flickr after the symposium

Thank you for joining us!

We hope you have a very enjoyable
day here at #OSGeoE2018

Dr. Marco Minghini

Politecnico di Milano
